Dear Keith:

I have known Keith Black professionally for nearly five years but never had personally used his services. Recently my estate was in dire need of updating and before I engaged Keith I was greatly exposed. During the process, Keith and his staff were caring and conscientious and a pleasure to work with. Now that my estate has been updated exactly to my wishes with first class documents, I can sleep easier at night knowing that my wishes will be fulfilled exactly. I can recommend Keith to others who need to create or update their estate documents without reservation.

Jacob I.
